

CURRICULUM VITAE

■ PROFESSIONAL EXPERIENCE

- 12.2025 - present **Professional Reorientation & Project Work**
- Professional development in software development and AI
 - Working on own projects and prototypes
 - Actively seeking a suitable senior position
- 05.2025 - 11.2025 **Technical Consultant**
Innomanic UG, Giengen an der Brenz
- Served as interim technical consultant during a search for a permanent executive, contributing my expertise and leadership on a pro bono basis.
 - **Payment systems:** Support in optimizing payment and refund processes, integration of Stripe APIs and webhooks, focus on security, reliability, and clean workflows
 - **Framework / Database:** Working with Laravel and MariaDB, analysis and stabilization of existing system structures
 - **Software architecture & Development:** Development of admin tools and product functions, implementation of asynchronous notifications and background jobs, introduction of job monitoring and automated workflows
- 05.2013 – 04.2025 **Software Developer**
Yalwa GmbH, Wiesbaden
- **Backend development:** Development of scalable data processing and analysis systems as well as integrations via SOAP, REST, and proprietary APIs (Python/Fast API, PHP, SQL, Gunicorn).
 - **Frontend development:** Development of web-based components with JavaScript, HTML, CSS.
 - **AI/ML:** Development and integration of machine learning models for content quality analysis (e.g., spam/scam detection, image and text analysis) with TensorFlow, PyTorch, Keras.
 - **Optimization & Research:** Research, prototyping, and implementation of modern algorithms for quality and performance optimization.
 - **Project/Tooling:** Version management with Git, Jira.
- 04.2013 – 02.2014 **Thesis Student (Master's thesis)**
German Research Center for Artificial Intelligence (DFKI), Kaiserslautern
- **Research/Thesis:** Master's thesis in Semantic Desktop Research (context-sensitive work area for knowledge workers).
 - **Backend Development:** RESTful API backend (Java, MySQL) for supporting complex data processing.
 - **Frontend Development:** Building a desktop system with web technologies and a responsive user interface.
- 07.2011 – 12.2012 **Student Assistant**
Fraunhofer IESE, Kaiserslautern
- **Database:** MySQL programming for the "Dementia Diary" component in the CCE project (Connected Care for Elderly).

- **Backend development:** Implementation and testing of Java-/Drools-based reminder logic and activity detection incl. integration into the overall system.
- **Support & Visualization:** Support of CCE evaluation (technical support, test database) as well as web-based preparation/visualization (Activity Monitoring); evaluation of sensor data (e.g., door contact, motion detector).

05.2010 – 02.2011 **Software Developer**

Sourcetop Inc. (Headquarters: Scarsdale, NY, USA - Location: Bangladesh)

- **Web development:** Implementation and further development of database-driven web applications with PHP, HTML, CSS, JavaScript, and jQuery.
- **CMS & Frameworks:** Customization and extension of Drupal modules/features with Codelgniter.
- **Databases:** Development and optimization of MySQL queries in project-related requirements.

06.2009 – 04.2010 **Senior Software Developer**

Coco Barcelona (Head office: Barcelona, Spain - Location: Dhaka, Bangladesh)

- **Backend development:** Implementation of PHP-based web solutions incl. business logic and interfaces.
- **Frontend development:** Creation of responsive interfaces with HTML, CSS, JavaScript, and jQuery.
- **CMS & Frameworks:** Development and maintenance of customer websites with WordPress, Drupal, and project work with Codelgniter and Joomla.

11.2007 – 05.2009 **Software Developer**

Hotimedia Ltd., Bangladesh

- **Web development:** Development and maintenance of web applications with PHP and MySQL.
- **Frontend:** Implementation of layouts and interactions with HTML, CSS, JavaScript, and jQuery.
- **CMS:** Configuration, customization, and template integration for WordPress and Drupal projects.

■ EDUCATION

03.2011 – 03.2014 **Master in Computer Science**

Technical University Kaiserslautern, Kaiserslautern

- Master's thesis at DFKI (Semantic Desktop Research)

02.2002 – 02.2007 **Bachelor of Science in Computer Science**

BRAC University, Dhaka, Bangladesh

■ PROFESSIONAL DEVELOPMENT

2018 **University of Michigan (Coursera)**

- Text Retrieval and Search Engines
- Applied Text Mining in Python
- Applied Plotting, Charting and Data Representation in Python

- Applied Social Network Analysis in Python
- Applied Machine Learning in Python
- Introduction to Data Science in Python

▪ OTHER SKILLS

- **Languages:** German (level B2), English (fluent), Bengali (native language), Hindi (basic knowledge)
- **Work style:** Agile work methods, high willingness to learn, solution-oriented

▪ COMPETENCY PROFILE

- **Backend:** Python (Django, Flask, FastAPI), Java (Spring Boot, Hibernate), PHP (Laravel, Symfony, CodeIgniter); API development (REST, SOAP, GraphQL)
- **Frontend:** JavaScript, TypeScript; React, Angular, Vue.js; Node.js (Express.js), Next.js; Deployment e.g., with Vercel
- **AI / ML & Generative AI:**
 - Conception & productive use of LLMs (GPT, Llama, Mistral, DeepSeek, LLaVA)
 - RAG architectures and AI agents (LangChain / LlamaIndex)
 - Content-Moderation & Classification (OpenAI Moderation API, Hive, Perspective API)
 - Computer Vision (Hugging Face, OpenCV, PyTorch)
 - Classical ML / Ensemble models (XGBoost, LightGBM, scikit-learn)
- **Mobile:**
 - Flutter (Dart)
 - React Native
 - State-Management e.g., Riverpod, Provider
- **Cloud/DevOps:**
 - AWS (EC2, S3, Lambda)
 - GCP (Cloud Functions, BigQuery)
 - Docker; CI/CD
- **Databases:**
 - Relational (MySQL, MariaDB, PostgreSQL)
 - NoSQL (MongoDB, CouchDB, Couchbase)
 - ORM/Tools e.g., Eloquent, SQLAlchemy
- **Tools/Workflow:** Git, GitHub, GitLab, Jira/Confluence automation

▪ PERSONAL DATA

Date of birth: 31.12.1982
Place of birth: Tangail, Bangladesh
Nationality: Bangladeshi
Marital status: single
Entry: 2011
